

AES interactive dj entertainment 40th birthday celebrations

So you're turning 40, are you? Let's get the party started!

When it comes to 40th birthday celebrations, AES has DJs who are suited specifically to your type of event. No cowboys. No rockstars. Just full-time, professional DJs who have earned their stripes playing in some of Melbourne's biggest clubs and pubs over the last 2 decades.

So if you are into Ministry of Sound club hits, rock, dance, r'n'b, classic rock or contemporary chart music, we've got it. Nothing fires up a party like retro classics and that means the biggest pop and rock hits from the 70s, 80s, 90s and 00s. Got that covered too. And our **music selection forms** make it easy to construct your own playlist of your favourite songs.

We've got the experience, the right music and quality pro DJ gear that you'll need for a successful event. And your DJ can be as quiet or as interactive as you want him to be. Sound like your type of party? Read on...
