

## NAT ALLISON

Playing since the age of 10 and performing since the age of 13, Nat Allison's passion and love for music is unmistakable when you see her perform. 'I love what I do and hope to be doing it for a very long time.'

A personal favourite of Nat's would have to be 'Whole Lotta Love' by Led Zeppelin which has to be seen and heard to be believed. Her guitar playing and vocal abilities are next to none. From the guitar solo in 'Foxy Lady' (Jimi Hendrix) to the screaming vocals in 'Respect' (Aretha Franklin), not many performers can hold their own as Nat can. People often approach Nat to say 'I can't believe that such a big voice comes from such a petite girl.'

Nat Allison's extraordinary talent has enabled her to turn this creative flair into a full time profession. She has wowed audiences all over Melbourne and also performed at a number of venues interstate.

But...Nat Allison's talent doesn't stop with performing the works of others. She also writes her own material which she performs on a regular basis with her Band. Nat Allison's song writing skills and musical talent has taken her across the seas to work with highly acclaimed songwriter/ producer 'Mike Chapman' who has spawned hits such as 'Mickey', 'My Sharona', 'Simply The Best', and countless others.
